

ABOUT US

Education plays the most important role in building up the edifice of a nation. Modern education has in itself become a research oriented and ever evolving process rather than remaining a set of prescribed syllabi and traditional teaching skills. It lays stress on awakening self-awareness and nurturing students innate talents. It was with the objective of combining professional excellence with zealous commitment that the first branch of Customs Public School was set up in Lahore in 1982. The efforts of the Collectorate of Customs and Central Excise Lahore, in establishment of this institution were enormous, and therefore deserve special mention. While laying foundation stone of the institution, the main consideration was to provide a conducive academic atmosphere and excellent teaching facilities to the children of departmental employees, in particular, and public, in general. Since its establishment, Customs Public School has very successfully catered to the needs of the students in rapidly changing world. The school is run on the basis of "No profit No loss".

A child is an asset of a nation, a responsibility for a society but certainly not an object of personal property for anyone. One of the chief concerns for the educationists world over is to find a balance between unobstructed growth of a students as an individual and his grooming as an inseparable part of a social unit. That's why early years of a kid's life are also termed as the formative phase of his life. At that particular juncture the requirement is to spot the natural inclinations hidden and encourage the growth in a way which may serve the child most in future and Customs Public School is doing the needful.

We, all the people at CPS have always tried to mould our children in such a way that they emerge as confident, caring and enquiring individuals capable of making right choices and correct decisions and responsible citizens having the ability to differentiate between right and wrong and having the courage to favour what is right and to oppose what is wrong. We feel proud to share, that old Customonians (students passed out from CPS) are serving in the most prestigious professions including medicine, engineering, management law, civil services, forces etc. We hope Inshallah that our students will keep on bringing laurels to their institution in future also. Ameen!
